The Commonwealth of Massachusetts

ANNUAL REPORT

OF THE

COMMISSIONER OF PUBLIC SAFETY

FOR THE

YEAR ENDING NOVEMBER 30,
1933

The Commonwealth of Massachusetts

THIRTEENTH ANNUAL REPORT

THE DEPARTMENT OF PUBLIC SAFETY

Year Ending November 30, 1933

To the Honorable Senate and House of Representatives:

In accordance with the provisions of General Laws, Chapter 147, section 1, I have the honor to submit the thirteenth annual report of the Department of Public Safety for the year ending November 30, 1933.

The Department of Public Safety performs a variety of services intended for the preservation of the public peace and protection of life and property, and is composed of three main divisions which, though engaged in a common purpose, reach their objective through somewhat widely different channels.

The present organization includes a Division of State Police under the direct charge of the Commissioner of Public Safety; a Division of Inspection under a Chief of Inspections; a Division of Fire Prevention under the State Fire Marshal; the State Boxing Commission; a bureau of police communications; a bureau of criminal identification; a bureau of expert assistants; a bureau of Sunday entertainment censorship; a bureau of custody of contraband and a bureau of storage of liquids.

The following is an outline of the ordinary activities of the Department:

ADMINISTRATION

Bureau of Sunday Censorship:

Censorship of Films for Sunday exhibitions.

Censorship of other Sunday entertainments in theatres and playhouses.

Approval of games for exhibition at amusement parks and beach resorts.

Bureau of Criminal Identification:

Receiving and recording criminal records, photographs, fingerprints and other means of identification.

Furnishing information to police authorities, federal and other authorities.

Bureau of Expert Assistants:

Analysis and testing of explosives and inflammable fluids and compounds.

Investigations relating to chemistry, firearms, ammunition, ballistics, microscopy, photomicrography, handwriting and photography.

Assistance in investigation of capital crimes and the giving of expert testimony in prosecutions.

Bureau of Storage of Liquids:

Examination and approval of plans and specifications for all bulk oil storage plants and storage of all liquids other than water.

Supervision of construction of such storage plants to insure compliance with the law.

Sale and Carrying of Firearms:

Receiving and recording records of all sales or transfers of firearms in the Commonwealth.

Receiving and recording records of all licenses issued by local authorities for the carrying of firearms.

Licensing of Private Detectives:

Investigation and licensing of applicants.

Approval of Innholders' and Victuallers' Licenses:

Investigation and approval of licenses of inns in towns of less than 2,500 registered voters.

Bureau of Custody of Contraband:

Receipt and custody of liquors or other property ordered forfeited by the courts.

Sale or auction or destruction of confiscated property.

DIVISION OF STATE POLICE**Detective Bureau:**

Enforcing the general laws respecting crimes, and investigating felonies where no organized police are maintained, or where maintained, when requested.

Investigation for District Attorneys and aiding in the preparation of cases for prosecution in Superior Court.

Available for special investigation for state departments.

Uniformed Police:

Enforcing the laws of the Commonwealth generally, protecting property, apprehending and prosecuting criminals, controlling traffic, and assisting local authorities when requested in emergencies.

Bureau of Police Communications:

State Police Radio: Installation and operation of police radio communications.

State Police Teletype: Installation and operation of police teletype communication system.

Massachusetts State Police state-wide system; greater Boston Police circuit; circuit connecting five adjoining states, and coast-to-coast teletype.

Training School:

Training of State Police appointees and reconditioning of men already in the service.

DIVISION OF INSPECTIONS**Building Inspection:**

Examination of Buildings to insure compliance with building laws.

Inspection and approval of plans and specifications of public buildings.

Supervision of construction and alteration of public buildings.

Inspection of places of public assembly, hotels and lodging houses.

General enforcement of state building law and regulations.

Examination of applicants for motion picture operators' licenses.

Inspection of motion picture booths.

Examination of applicants for licenses as elevator operators.

Board of Elevator Regulations.

Inspection of portable motion picture projection.

Boiler Inspection:

Inspection of steam boilers, air tanks and their appurtenances.

Examination of applicants for licenses to operate boilers and steam plants and other power machinery.

General enforcement of laws, rules and regulations relating to steam boilers and power machinery.

Board of Boiler Rules—representing boiler manufacturing interests, boiler insurance interests and operating engineers.

DIVISION OF FIRE PREVENTION**State Police Fire Inspectors:**

Investigation of fires.

Prosecution of cases of arson and incendiarism.

Preparation of evidence for fire inquests and prosecution of cases in court.

Supervision of storage and use of explosives, fireworks, volatile inflammable liquids and compounds.

General enforcement of fire prevention laws and regulations.

Examination of plans, devices, appliances and equipment relating to fire prevention and fire protection.

Hearing on appeals from action of local authorities in licensing fire or explosion hazards.

BOXING COMMISSION

Enforcing laws, rules and regulations governing boxing.

Supervising boxing exhibitions conducted under authority of law.

Licensing of boxers, referees, judges, managers, physicians, time-keepers and seconds, and licensing of clubs and associations.

Examination and approval of schedules of exhibitions.

The officers and inspectors of the department are clothed with police powers and those serving in divisions other than the Division of State Police are available for assignment to that division for duty when necessary.

An examination of this report will show that a great deal of the work accomplished by the department is routine in nature and must necessarily be shown by statistical arrangement. For this purpose, statistical tables have been prepared and are to be found later in the report.

No inference should be drawn as to the relative importance or prominence of the work of the various divisions from the order in which their activities are recorded.

ROSTER OF THE DEPARTMENT

Daniel Needham, Commissioner

Timothy C. Murphy, *Executive Secretary.*

James P. Mahoney, *State Police Executive Officer.*

DIVISION OF STATE POLICE

As at present constituted, the Division of State Police includes a bureau of State Detectives, the uniformed police and a number of civilian employees necessary to effective operation. Fourteen members of the Division are assigned to the work of the Fire Marshal in the Division of Fire Prevention. Special assignments are also made as follows: Board of Registration in Medicine, 1; Dental Board, 1; Governor's Committee on Street and Highway Safety, 3; Executive Department, 2; Treasurer and Receiver General, 1.

The Type and number of the personnel of the Division are as follows:

Commissioner	1	Special Officers	7
Chief of Detectives	1	Chauffeur	1
Detectives	18	Motor Equipment Repairmen	10
Fire Inspectors	14	Carpenter	1
Captain and Executive Officer	1	Radio Repairmen	2
Lieutenant and Adjutant	1	Laborers	11
Lieutenants	8	Tailors	2
First Sergeants	4	Head Cooks	4
Supply Sergeant	1	Assistant Cooks	17
Sergeants	19	Hearings Stenographer	1
Corporals	21	Sr. Clerks and Stenographers	2
Patrolmen	197	Jr. Clerks and Stenographers	9
Special Officer Sergeants	7	Jr. Clerks	2
Governor's Bodyguard	1		

Of the 355 cities and towns of the Commonwealth, all of the cities and 83 of the towns maintain organized police departments. The remaining 233 towns with a population of approximately 400,000 constitute the area which is primarily served by the State Police. The area secondarily served includes 67 towns of from 5,000 to 15,000 population with a total of slightly more than 582,000. It will be noted therefore that the services of the State Police are rendered more or less directly to a population of more than 900,000. In view of the fact that there are less than 200 men actually available for patrol and traffic duty at any given time each officer serves approximately 4,500 persons. This figure is noteworthy in view of the established estimate of one police officer to each 1,000 of population as a practical working rule.

It has become increasingly apparent that in order to extend proper protection to the area served the number of men constituting the uniformed force should be increased materially.

The effective policing of a given area depends naturally upon the number and quality of the personnel available for the work and the character of the equipment with which they are furnished. The maintenance of a mobile force such as the present organization is essential in the proper application of our resources to the varying needs of different localities in the commonwealth. In addition to a general scheme of police protection it is desirable to be able to concentrate men to cope with unusual contingencies when necessity arises. This has been carried out effectively in the extra demands made upon the force during the year. When it became necessary to concentrate a number of officers

at various points in the state the movement in each instance was executed with efficiency and dispatch. Radio and teletype facilities in the department aided materially in this work and in every respect justified the expense necessary to their maintenance.

BUREAU OF POLICE COMMUNICATIONS

The importance of immediate and accurate transmission of police information and its value in police work cannot be over-emphasized. The radio and teletype facilities of the State Police have rendered effective service in this regard during the year. For the purpose of more effective administration these units have been organized as a bureau of police communications under the direction of a Lieutenant who is also a licensed radio operator.

Acting in cooperation with the Metropolitan District Police, the police departments of cities and towns in the Commonwealth and with the police departments of other states we have made definite progress in police communications and look forward to even more satisfactory results in the future.

RADIO

During the year ending November 30, 1933, the radio system of the State Police has been extended so that service is now available throughout the entire Commonwealth. The original 1,000 watt station at Framingham has been augmented by two similar transmitters, one at West Bridgewater and one at Northampton. The West Bridgewater station commenced operations April 1, 1933 and the Northampton station was officially opened October 2, 1933. These transmitters, constructed and installed by State Police personnel, are performing satisfactorily. One other important unit has been constructed and has been used effectively. This is a mobile radio station mounted on a fast six cylinder truck chassis and capable of transmitting messages to patrol cars over a radius of twenty miles and maintaining two-way voice communication with one or more of our fixed stations from any point in the State. The purpose of this mobile unit is to supplement our fixed stations in handling localized police work, such as a man-hunt, riot, etc., at the scene by providing a field headquarters from which police work can be directed and so that the fixed stations will not be impeded in their regular broadcasts. This truck when set up in an area from which communication has been cut off by fire, flood or snow, will provide a two-way telephone channel entirely independent of power and telephone lines. Practical use of this station has been made in the following cases:—the Springfield flood, the McMath kidnapping, the cranberry bog workers' strike and the Springfield truck drivers' strike.

The radio personnel has been increased and now consists of one radio technician and eight licensed operators.

Station WMP broadcast 28,980 items and was on the air 680 hours during the year. Station WPEL broadcast 48,200 items and was on the air 483 hours. Station WPEW broadcast 9,400 items and was on the air 80 hours.

We furnish to the following cities and towns, without cost to them, a twenty-four hour Radio Broadcast Service:

Agawam	Cochituate	Hatfield
Acton	Cohasset	Hinsdale
Auburn	Concord	Holyoke
Bedford	Duxbury	Indian Orchard
Bernardston	Deerfield	Kingston

THE USE OF RADIO IN POLICE WORK

The speed and efficiency of radio communication in police work has been frequently demonstrated in the work of the State Police. The following instances are cited in order to illustrate the manner in which our radio facilities have been utilized in cases arising in the ordinary course of duty:

(a) On August 30, 1933, word was received at Troop C headquarters at Holden that a man for whom several warrants on breaking and entering charges were held was supposed to be staying at the home of a friend in Crosswell, Michigan.

A teletype message was sent at 8.03 p.m. to W.M.P. radio station at Framingham requesting a message to the Michigan State Police Radio Station W.R.D.S. giving them the information and asking that an attempt be made to locate the man. At 8:31 p.m., or 28 minutes after our teletype message was sent to Framingham, a teletype message was received at Holden from Framingham stating that the Michigan State Police had reported by radio that the man had been located, arrested and was being held for us at their St. Claire barracks. He was later extradited to Massachusetts.

(b) During the recent period of differences between the cranberry growers and employees in southern Massachusetts the use of radio in directing the movement of patrol cruisers was particularly effective. Sixty men assigned to duty with twenty cruiser cars were able to keep order in the nine towns which comprise the cranberry growing section by instructions given them by radio from Troop D headquarters at West Bridgewater. Owing to the large area to be covered it was difficult to anticipate points where disturbances were likely to arise. Arrangements were made for reports to Troop headquarters of any disorder and cruiser cars were contacted by radio at points nearest to the scene. In practically every instance officers in cruiser cars were on the scene of disturbances in from three to five minutes. This work was greatly facilitated by the use of our mobile radio unit Station W.P.E.V. which had taken station at Wareham and aided in the distribution of calls by re-broadcasting all information and instructions received from our Station W.P.E.L.

(c) On Saturday, December 23, 1933, a plane of the American Airways Inc. which had left Albany, N. Y., at 7:52 p.m. carrying passengers and mail was reported half an hour overdue at Hartford, Connecticut, en route to Boston. Officials of the company requested our Troop B Headquarters at Northampton to make a search for the ship. A message was broadcast from our State Police Station W.P.E.W. to all cruiser cars and a few minutes later officers attached to a cruiser car reported a plane flying above the clouds over the Jacob's Ladder road between Westfield and Pittsfield. Three minutes later officers of another cruiser reported a plane over Northampton. Troop B Headquarters immediately notified the American Airways company at Albany who in turn flashed the information to Chicago where a radiophone message was flashed to the pilot Thomas Halpin of Albany acquainting him with his correct position and enabling him to proceed by compass direction to Hartford. A letter of thanks from the American Airways Inc. to the State Police explained that the direction finder on the plane had frozen so that the pilot was unable to get the radio beam. Owing to a heavy overcast he was unable to land and was duly appreciative of the assistance rendered by the State Police.

(d) When in May, 1933, Margaret McMath, age 12, was reported missing from the school which she attended in the town of Harwich under circumstances indicating kidnaping, the State Police were called upon to investigate. In this investigation a number of the department automobiles were in use in various sections of the cape district. To facilitate communication with these cars our mobile transmitter was moved to Harwich and was set up as a message distribution centre. By means of this service the officers detailed with these cars were kept in constant touch with a temporary headquarters located in Harwich. Within four days of the disappearance of the child, she had been located, the kidnapers arrested and ransom money amounting to \$70,000 recovered.

(e) On November 25, 1933, at 7:20 p.m. a hold-up was reported as having occurred at a gasoline filling station on the Boston Post Road in Wayland. At 7:21 p.m. a message was broadcast from Station WMP to all cruiser cars, giving a description of the robbers and the registration number of the automobile in which he had left the scene of the crime. This message was immediately received by two patrolmen of Troop C at a point on the Boston Post Road west of the scene of the reported hold-up. Proceeding east they encountered the wanted car and arrested the occupant who thereupon admitted the crime. He was found to be armed with a loaded automatic pistol and had the proceeds of the robbery on his person. The Troop C officers reported the arrest by phone to their headquarters at 7:40 p.m., nineteen minutes after the radio broadcast was received.

Teletype

In December, 1932, the Massachusetts State Police Teletype system consisted of the following—A central control point, located in the State House, Boston, at which place there is a teletype switchboard and four teletype machines.

In each Troop Headquarters there is a teletype switchboard and three teletype machines, which connect directly with all its sub-stations and a line from each Troop Headquarters to the State House in Boston, and relays from Holden to the Worcester Police Department.

At the State House there are two more machines, one connected with the suburban circuit which consists of twenty-five departments in the metropolitan area and another machine known as the Coast to Coast machine through which we are able to reach any city or town in the United States that has a teletype machine.

Up to March 1, 1933, in order to send a message to the Worcester or Springfield Police Departments, the message had to be sent to Holden and they in turn relayed it on the Worcester-Springfield circuit. At Springfield was located another teletype machine on the Connecticut System comprising twenty city and state police stations, and a message to the Connecticut System again had to be relayed by the Springfield Police.

On March 1, 1933, the Worcester-Springfield circuit was discontinued. Springfield now has a direct line to the Northampton State Police switchboard and Worcester has a direct line to the Holden State Police switchboard. These new connections enable Worcester and Springfield to send direct to any station on our system.

On June 12, 1933, the connection between Springfield and the Connecticut System was discontinued and a new circuit established between the Connecticut System and the State Police at Northampton. This expedited the handling of messages to Connecticut due to the fact that at Northampton there is a permanent teletype detail on duty.

On April 15, 1932, an additional teletype machine had been installed at the State Police station at Lee connecting the Massachusetts State Police Teletype System to the New York State Police Teletype System and through this connection it was possible to send and receive messages to and from the New Jersey and Pennsylvania Police Teletype Systems comprising a total of 656

teletype stations in the five states and constituting the so-called Five State Police Broadcast circuit.

On June 26, 1933, the connection from Lee to New York was discontinued and a direct circuit was established between the Northampton State Police switchboard and the New York State Police switchboard at Albany. With this connection any Massachusetts State Police station can communicate to any station on the New York State Police circuit without a relay.

Through the Five State Police broadcast circuit the police of these states have continued to cooperate to the benefit of all concerned.

On March 21, 1933, the Fall River Police installed a teletype machine and a direct line to the State Police switchboard at West Bridgewater through which they can communicate direct with all Massachusetts and New York teletype stations.

On July 15, 1933, a teletype machine was installed at the new station at Salisbury Beach with a direct connection to the State Police switchboard at Framingham.

The Teletype Bureau at the State House handles on an average of 500 requests a month for automobile data. A station requesting motor vehicle information sends a teletype message to the Teletype Bureau, who in turn telephone the Registry of Motor Vehicles for the information. This service is handled through the regular telephone system. Due to the large number of requests for motor vehicle information and to facilitate the handling of these calls, a direct telephone line between the Teletype Bureau at the State House and the Registry of Motor Vehicles in the Public Works building was installed on October 1, 1933.

On May 5, 1933, an emergency installation was made from the State House to the Harwich Police Station in connection with the kidnaping of Margaret "Peggy" McMath, on May 4. This connection expedited the sending of messages. The Commissioner and the Executive Officer having taken station at Harwich, the machine made that town the central control point of the entire Massachusetts State Police, insured more privacy and the elimination of error due to the printed permanent messages.

The Coast to Coast machine at the State House has been used on different occasions during the year, particularly on the McMath case, when an urgent message was sent to Sacramento, California, to check on a car, suspected of being implicated. After the connection was completed, immediate reply was received from the authorities at California as to the information desired. Eight minutes elapsed from the time the connection was requested from the toll operator to the time the message was completed. There is no cost for this machine except a standard rate charged when used.

During the last year 110,000 messages have been sent out from the central control point at the State House and approximately 100,000 of these messages have been sent to all stations by the General Broadcast hook-up.

Examples Illustrating the Utility and Efficiency of the Teletype System of Police Communication

(a) On July 24, 1933, at 12:27 a.m., a message was received from the Chelsea Police that that department held a warrant for a man wanted in connection with the larceny of \$1000 in currency. From reports received in Chelsea this man fully intended to start for South America the following day. This information was sent to the New York City Police and a reply received at 3:35 a.m., stating that this man had been apprehended and all the money had been recovered.

(b) On September 5, 1933, at 6:35 a.m., a message was received from Williamstown relative to two men who broke jail there and who had also broken into a garage, taking a car, and the direction in which they headed was unknown. This information was sent out on a Five-State General Broadcast; included was a description of the men and the registration of the stolen car. On the following day a message was received from the Philadelphia Police Department stating that the above men and car had been apprehended.

(c) On August 25, 1933, at 1:24 p.m., a telephone call was received from a manufacturing company at Syracuse, New York, stating they had an important message for one of their salesmen who was traveling in this state. This message was sent out on a General Broadcast and at 2:20 p.m. on this same day, officers from our Monson Station reported that this man had been stopped and notified to call his home office immediately.

(d) On July 15, 1933, a regular report of a stolen car was received on the Suburban machine and transmitted to all our stations in the State through the General Broadcast. The following day word was received from the Albany, New York, Police Department that this particular car, together with the occupants who stole the car in Boston, had been apprehended and were in custody.

The Boston Police secured the necessary papers to bring the prisoners back to answer to the charges, but we were notified that these men had broken jail in Albany, stolen a car, and were headed back into Massachusetts. This car contained two or three guns and a quantity of ammunition. All our western stations were notified to have all roads leading from New York State carefully guarded. Word was soon received from the Pittsfield Police that this car had been seen going through that city at a high rate of speed and that one of their officers had attempted to stop this car but was unsuccessful. The search ended in the town of Russell when men from this department forced the car to a stop, arresting the occupants, who were both armed, and seizing the car.

Traffic Control

During the year 1933, the Traffic Division of the State Police functioned with a personnel of 1 Sergeant and 109 Patrolmen. At present they are assigned as follows: Troop "A", covering Essex, Middlesex and Norfolk Counties, 28 Patrolmen; Troop "B", covering Berkshire, Hampden, Hampshire and Franklin Counties, 24 Patrolmen; Troop "C", covering Worcester County, 26 Patrolmen; Troop "D", covering Plymouth, Bristol, Barnstable, Dukes and Nantucket Counties, 27 Patrolmen; and Headquarters in the State House, 1 Sergeant and 2 Patrolmen for administrative and inspective duties.

The members of the division handled 30,804 auto violations during the year, which were disposed of as follows: Warnings given by officers—11,932; Summons to Court—8,401; Arrests—879; Operators checked for License and Registration—9,485; Suspension of License or Registration by the Registrar—107.

The personnel of the division also served 52,343 cards on operators of motor vehicles for defective equipment of automobiles. These cards are made in duplicate and are used for the purpose of notifying the owners of motor vehicles to have the defects corrected. When this has been done, the owner or operator is required to secure the signature of a representative of the Registrar at an approved testing station. It is further provided that the card be then mailed to the Troop Headquarters.

On May 1, 1933, the Governor's Committee on Street and Highway Safety issued a bulletin requesting the cooperation of all Police Departments in an intensive motor vehicle law enforcement program, to continue to July 31, 1933. On September 1, 1933, another enforcement program was started, and in both of these drives against motor vehicle law violators the division cooperated to the fullest extent.

There are also 3 officers of the division assigned exclusively to the Governor's Committee, 2 at the State House and 1 at Northampton. Their duties are to establish and maintain schedules of school safety talks, as well as talks and instruction on highway safety to civic groups throughout the State. They also assist in studies of isolated hazards on the highways, brought to the attention of the Committee in the form of complaints or suggestions.

The records of the division indicate that 1146 accidents came to the attention of officers on traffic patrol for investigation. This number was slightly less than that of the previous year and included only 49 cases which resulted fatally. This indicates a decrease of ten per cent of fatalities in the area patrolled from the number occurring in 1932. There were no additional officers

assigned to this duty during 1933, and it was necessary to withdraw officers from traffic duty temporarily for duty at industrial disturbances during the latter part of the year.

In addition to maintaining traffic patrols, the division handled the following assignments: Escorts given—64, for a total of 452 one-man days; requests for assistance from other police departments to assist in traffic regulation—110, for a total of 732 one-man days. Officers were also assigned to 12 agricultural fairs; for duty in the flood area in the western part of the State, and in the vicinity of Brockton and Springfield where violence occurred on the highways in connection with the truck drivers strike.

The completion of the new Boston-Worcester Turnpike, and the southwest cut-off around the city of Worcester, as well as the new by-pass from Dedham to the Rhode Island line, has necessitated the maintaining of twenty-four hour patrols over these roads. This has materially increased the duties of the division on these roads alone. Careful supervision of the traffic patrols has resulted in the maximum of service from the limited number of officers available for the work.

State Police Training School

This school was formerly maintained throughout the year but is now in session only when recruit patrolmen are to be trained or when a general reconditioning of State Police personnel is carried out.

From August 15, 1933, to November 3, 1933, a class of twenty-four recruit patrolmen were in training under canvas at the Muster Field, Framingham. These men were appointed to fill existing vacancies and upon graduation from the school were assigned to duty in the various troops. During their course of training these men were instructed in police practice and procedure, the general laws respecting crimes, the use of the motorcycle, horsemanship, shooting and care of firearms, traffic direction, jiu-jitsu and military drills. In addition, they were given special instruction in ballistics, fingerprint classification and the use of photography in the investigation of crimes. In connection with their training each officer in the class qualified as a marksman, sharpshooter or expert in the course prescribed by the New England Revolver League.

This group of appointees was selected after examination of nearly seven thousand applicants. From this number, after the various examinations and tests were completed, an eligible list of four hundred and fifty-eight was available. This list represented practically every calling including those of laborer, salesman, aviator, teacher and clergyman. Eleven were college trained men and others had been specially trained in technical, nautical and agricultural schools. Eleven of the group had records of service in the army, navy, marine corps and national guard which ranged from one to six years' duration.

SUPERVISION OF LORD'S DAY ENTERTAINMENTS

(Bureau of Sunday Censorship)

The supervision of Lord's Day entertainments is authorized under the provisions of Chapter 136 of the General Laws and during the year ending November 30, 1933, there were submitted to this Bureau for the approval of the Commissioner of Public Safety a total of 20,963 licenses and programs of entertainments to be held on the Lord's Day. Of this number, 20,958 were approved and 5 disapproved.

Each of these licenses and programs was accompanied by a fee of \$2, the amount totalling \$41,926, which was paid to the Treasurer of the Commonwealth.

In addition to the above number of licenses, there were 6,421 reels of motion picture film censored for showing on the Lord's Day, which were disposed of as follows:

Number of reels approved	5,632
Number of reels approved with deletions	716
Number of reels disapproved	73
Footage of film censored	5,778,900

There were also submitted for censorship seventy-seven mutoscope reels and thirty-nine sets of drop cards which were disposed of as follows:

Mutoscope reels approved	64
Mutoscope reels disapproved	13
Drop cards approved	30
Drop cards disapproved	9

There were 4,071 vaudeville acts reviewed for showing on the Lord's Day. They were acted upon as follows:

Acts approved	674
Acts approved with deletions	638
Acts disapproved	290

The personnel assigned to this bureau perform various duties in connection with the enforcement of the law governing entertainments held on the Lord's Day in this Commonwealth. In addition to their functions as censors, they are required to perform such other duties as may be assigned them from time to time, such as the checking of licenses as approved by the Commissioner of Public Safety to determine whether or not they are exercised as originally approved. It is also necessary to check all entertainments at the many different theatres, halls, amusement parks and beaches.

The entertainments are varied in character. The theatres and larger halls offer stage presentations, vaudeville and motion pictures, while in the different community theatres and halls, plays are conducted by both professional and amateur performers. Many of these performances are in a foreign tongue and require the service of interpreters in censoring. At the amusement parks and beaches are conducted the many different rides, games, sideshows, etc., which require a most rigid supervision.

During the 1933 session of the legislature, Chapter 309 of the Acts of 1933, authorizing the operation on the Lord's Day of such bowling alleys, shooting galleries, photographic galleries, games, rides, etc., as may be approved by the Commissioner of Public Safety, was enacted and became effective on July 7, 1933.

As in the past, we have received the cooperation of the majority of operators and licensing authorities in the different cities and towns in which amusement parks and beaches are located. At the beginning of each season a few unscrupulous operators appear who are immediately barred from the amusement business in the Commonwealth. In this connection there were approximately 872 performances in theatres inspected. Every amusement device or show, exhibits and games operated at the different amusement parks and beaches is inspected at least once during each season. Complaints received relative to violations in any amusement enterprise in the Commonwealth are investigated immediately and, if sustained, suitable action is taken. This procedure is absolutely necessary in order to insure strict compliance with the law.

Below is a summary of the amusements and amounts collected for same during the year 1933:—

	Number of Licenses	Amount
Motion picture exhibitions, vaudeville and theatricals	15,885	\$31,770
Amusements at beach resorts and at summer parks	4,702	9,404
Golf driving ranges	340	680
Outdoor miniature golf	31	62
<hr/>	<hr/>	<hr/>
Total licenses approved	20,958	\$41,916
Licenses for various amusements disapproved	5	10
<hr/>	<hr/>	<hr/>
Total number of licenses	20,963	\$41,926

BUREAU OF CRIMINAL IDENTIFICATION

General Laws, Chapter 147, Section 4-A, requires that there be provided within the department means for receiving, arranging and keeping data relating to the identification of criminals and for furnishing information concerning the same to police departments of cities and towns, to the Department of Correction, and to prosecuting officers within the Commonwealth.

The following is a statistical summary of the activities of this bureau during the year:

IDENTIFICATION OF CRIMINALS

(Statistical Summary)

The following records were received during the year ending November 30, 1933:

Finger Prints

Finger print records received from the Massachusetts Reformatory	534
Finger print records received from the Massachusetts State Prison	365
Finger print records received from the Women's Reformatory . .	300
Finger print records received from County Institutions	2,994
Finger print records received from Bridgewater Criminal Insane Hospital	62
Finger print records received from the Massachusetts State Farm	1,372
Finger print records received from the Mass. Police Departments .	6,050
Finger print records received from Penal Institutions (outside) .	2,609
Finger print records received from Police Departments (outside) .	2,587
Finger print records received from Massachusetts State Police . .	147
Finger print records received of Unknown Dead	11
Total	17,031
Grand total of finger print records on file	224,594

Modus Operandi Classifications

Received from State Prison	273
Received from Massachusetts Reformatory	415
Received from County Institutions	1,884
Received from Police Departments	3,609
Received from State Police	14
Received from Women's Reformatory	11
Received from Penal Institutions (outside)	3
Total	6,209
Records already on file	18,798
Grand total of Modus Operandi Photographs on file	25,007

Records of photographs and finger prints sent out upon request of police and prison officials:

Parole violators (Department of Correction)	3
Escaped prisoners (Department of Correction)	4
Escaped prisoners (Houses of Correction)	12
Escaped prisoners (Out of State)	3
Fugitives from Justice (Police Departments)	3
To Police Departments for verification of identification	3,243
Total of photographs and fingerprints sent out	3,268

Identifications made in connection with arrests, fugitive from justice circulars, unknown dead, etc.

22	P.D. 32.
Escaped prisoners from County Institutions	5
Escaped prisoners from State Institutions	4
Escaped prisoners from Institutions (outside)	10
Parole violators, Department of Correction (warrant on file)	33
Parole violators, Department of Correction (no warrant on file)	184
Parole violators, State Institutions (outside)	10
Probation Violators, Massachusetts Courts	12
Fugitives from Justice, Massachusetts Police	28
Fugitives from Justice (outside Police)	19
Fugitives from Justice (U. S. Army)	1
Fugitives from Justice (U. S. Immigration Department)	2
Teletyped prints	19
Modus Operandi Photographs	2
Unknown Dead	4
Amnesia Victim	1
Prisoners awaiting trial (at request of Court)	15
Finger print cards	6,648
Total Identifications	6,998

In addition to these identifications 11,730 letters containing criminal records have been sent to police and prison officials furnishing information concerning the most recent arrest of the subject of the record.

Criminal records rechecked for the Department of Correction	236
Criminal records rechecked for the Commission on Probation	273
Criminal records rechecked for the Boston Police Department (out of State prints)	585
Criminal records obtained from the Commission on Probation (over an 8-month period)	1,904
Criminal records submitted to the Governor's Crime Commission	29
Notifications sent to police officials of fugitives no longer wanted	26
Telegrams exchanged	42
Teletype messages exchanged	715
Photographs loaned police and prison officials	220
Single fingerprints catalogued	1,230
Prints of persons seventy years and over removed from files	2,125
Prints of dead persons segregated from main files	200

Police officers instructed in finger print science:

State Police Officers	6
Municipal Police Officers	3
State Institution Officers	3
Out of State Officers	1
	— 13

Places from which fingerprint records received:

Massachusetts Police Departments	62
Outside Police Departments	78
County Institutions	15
Outside Institutions and State Bureaus	48
State Institutions:	
State Farm, Massachusetts Reformatory, State Prison, Reformatory for Women, Bridgewater Insane Hospital	5
State Police Barracks	23
Total	231

Places cooperating and being cooperated with, by other means than by the exchange of fingerprints:

Massachusetts Board of Probation.
 Department of Justice, Boston.
 Narcotic Bureau, Boston.
 U. S. Post Office Inspectors, Boston.
 Immigration Department, Boston.
 Massachusetts District, Municipal and Superior Courts.
 Boston and Maine R. R., Detective Division, Boston.
 Department of Correction, State House, Boston.

BUREAU OF EXPERT ASSISTANTS

The personnel assigned to the work of this bureau include one chemist, one firearm and ballistic expert, two State Police Special Officer Sergeants skilled in photography and fingerprint work, and one State Police Special Officer. In addition to laboratory and field work the personnel aid in the prosecution of cases by giving expert testimony in the courts.

Chemical Analysis

Samples

Bombs, material from	6
Boiler compounds	3
Bullets, bullet fragments and shot	37
Celluloid and Nitro cellulose products	23
Cleaning preparations	64
Disinfectants	7
Firecrackers and fireworks	42
Fire and explosions, material from	256
Fuel Oils	34
Gases, inflammable	2
Gasoline	20
Kerosene, gasoline mixtures	16
Nitro glycerine	2
Paints	12
Shoe manufacture, material used in	19
Stove polishes	26
Oils, from waters of Commonwealth	38
Range burner oils, for safety	65
Tars and cements	8
Alcohols, confiscated	177

 857

Tests

Safety appliances for oil burners	32
Spontaneous ignition	2
Building material	22
Gas heaters	3

 59

Miscellaneous

Assisting fire inspectors	14
Grenades and bombs destroyer	10
Dynamite and other explosives destroyed (pounds)	15
Court attendance—no. of days	119
Fire and explosion scenes visited	117
Breaking and entering cases requiring search for fingerprint evidence	260
Homicides (scenes visited) for the gathering of evidence	20
Rifles, revolvers, pistols and shotguns examined	500
Subjects photographed	1,600
Photographs—printed	4,000
Mileage by automobile (miles)	50,000

PUBLIC RELATIONS

With a view to establishing a higher degree of coordination and cooperation with the public in general in the administration and enforcement of laws relating to public safety, the department during the past year accomplished desirable results through the medium of lectures given by officers of the department to organizations throughout the Commonwealth.

During the year ending November 30, 1933, the aims, purposes and resources of the department were impressed upon the public, particularly through the medium of talks on safety subjects and police activities. Members of the department especially qualified for this work appeared before audiences of school children and their instructors, firemen, policemen, veterans' organizations, granges, rotary, lion and kiwanis clubs, women's clubs, leagues and associations, fraternal societies and similar organizations. These talks have been illustrated by motion pictures and stereopticon slides, also including instructive accounts of the activities of the State Police, featuring several of the leading cases of the past year and an explanation and illustration of the special features of the department work such as classification in criminal identification, photography, chemistry, ballistic work and highway safety.

In addition to the lectures, an exhibition depicting the organization and resources of the State Police was maintained at the Topsfield, Brockton and Springfield fairs. This included a graphic portrayal of the activities of the State Police, with uniformed officers on duty to explain the various features. The communication system of the State Police was featured by an actual demonstration of the teletype and radio, these being operated daily in conjunction with the permanent equipment of the division, teletype messages being received at the exhibit booth, while radio broadcasts were received and transmitted also. In conjunction with the radio transmissions, the portable radio unit, mounted on a truck, was in actual use.

It is estimated that approximately 600,000 persons were actually contacted in this public safety work.

STATE POLICE BOAT "PROTECTOR"

The State Police Steamer Protector was used for the patrol and other purposes for which it was provided from the beginning of the fiscal year of 1933 until May 8, 1933, when the vessel was sold and the proceeds of the sale paid to the Commonwealth.

The work of the police detail formerly attached to the vessel is being carried on from shore and is confined chiefly to the inspection of motor boats, enforcement of the motor boat engine muffler law and the law relating to the pollution of the waters of the Commonwealth.

BUREAU OF CUSTODY OF CONTRABAND

This bureau receives all liquors and other property ordered forfeited by the courts and arranges for the sale at auction or destruction of confiscated property.

Police Stations, visits to, for the purpose of taking up confiscated property	116
Received from sale of forfeited liquors	\$3,687.25
Received from sale of forfeited autos	387.50
Received from forfeited gaming machines	1,872.77
Received from sale of salvage materials	1,047.85
Total amount of liquors received and destroyed or sold:	

Spirits
7,486 gal.

Wine
2,547 gal.

Malt
11,766 gal.

All moneys received from the sale of confiscated liquors and other property and taken from gaming machines have been accounted for and paid to the commonwealth.

BUREAU FOR THE STORAGE OF LIQUIDS

This bureau is maintained for the enforcement of the provisions of General Laws, Chapter 148, Sections 37 and 38, relative to the construction, use and maintenance of above-ground tanks of more than ten thousand gallons capacity for the storage of fluids other than water.

The officer in charge is assigned as assistant to the Commissioner for the enforcement of this law in addition to his duties as special boiler inspector.

This work includes the examination of plans, the figuring of stresses, determining compliance with specifications established by regulations, inspection of proposed sites for tank construction, and conferences with engineers, tank manufacturers, architects, public and private fire protection officials, licensing authorities and other municipal officers. In addition, the inspector checks the specifications of all new boilers and air tanks that are being installed in this State. This year specifications of 350 boilers and 384 air tanks were checked in this manner.

During the year ending November 30, 1933, permits were granted in 68 instances for the construction and maintenance of tanks under this law. In addition to this there were 7 permits issued for relocation of tanks.

Since the enactment of this law in 1921, there has been a great improvement in the maintenance of storages of this character due in no small measure to the spirit of cooperation shown by the manufacturers of tanks and others who are interested in installations which are subject to the provisions of the law.

	1932	1933
Number of cities and towns in which tanks are located	197	199
Number of corporations maintaining tanks	319	330
Number of tanks existing under this act	2,692	2,758
Number of tanks relocated	—	7

STATISTICAL REPORT

Following is the statistical report of the activities of the Division of State Police for the year 1933:

SUMMARY

OFFENSES	Pending Dec. 1, 1932	Arrests	Convictions	Discharges	Investigations	Fines and Costs	Property Recovered	Pending Dec. 1, 1933
<i>Offenses Against:</i>

DIVISION OF INSPECTION

The Division of Inspection, in charge of a director known as the Chief of inspections, is organized as provided by chapter 22, of the General Laws, and includes the functions of building inspection, boiler inspection, the Board of Elevator Regulations and the Board of Boiler Rules.

Building Inspection

Chapter 143 of the General Laws enforced by the Inspectors of Buildings applies to the construction, maintenance, operation, sanitation and ventilation of public buildings as defined in the law; also factories, hotels, lodging, apartment and tenement houses above a certain size and capacity throughout the Commonwealth. This chapter is enforced under rules and regulations approved by the Commissioner which are issued in pamphlet form for the convenience of those engaged in business affected by the statute. The inspection of elevators in cities and towns not having an elevator inspector is under the jurisdiction of the department, and in such places the elevator and escalator regulations promulgated by the Board of Elevator Regulations are enforced. The building inspectors also inspect cinematographs, so called, or moving pictures, and license operators for the same under rules which are approved by the Commissioner.

Boiler Inspection

Chapter 146 of the General Laws enforced by the Inspectors of Boilers provides for the annual inspection of steam boilers, except those of certain classes, also the issuance of certificates of inspection before the boilers can be operated. This chapter also provides for the inspection of tanks for the storage of compressed air used to operate pneumatic machinery, and for safety valves applied to ammonia compressors. The inspections are regulated by rules formulated by the Boiler Rules in accordance with this chapter. The boiler inspectors also enforce the provisions of said chapter relating to the licensing of engineers and firemen, operators of hoisting machinery, and insurance company boiler inspectors.

Service of the Supervisor of Plans

Plans submitted, 271. Consultations, 2,133. Certificates, 262. Specifications of requirements, 2. Without action, 5. Plans filed, 283. Under consideration, —. Total forwarded to inspector, 283.

Erection, Alteration and Inspection of Buildings

United States Guarantee Company	New York, N. Y.
Total Number of Authorized Companies	32

The number of authorized insurance company inspectors now holding certificates of competency from this division is 195. Sixteen applicants for these certificates were examined during the year. Twelve such applicants received certificates of competency, but the remaining four were refused.

The total number of Massachusetts Standard, Massachusetts Special and Massachusetts Heat Boilers, and Massachusetts Standard Air Tanks, constructed in accordance with the rules or regulations formulated or prescribed by the Board of Boiler Rules of this Commonwealth, data reports for which have been received, is as follows:

	Total
Boilers: Mass. Standard Boilers	218
Mass. Special Boilers	48
Mass. Heat Boilers	99
Air Tank: Mass Standard Tanks	365
	378
Grand Total (Boilers and Air Tanks)	743

Steam Boilers Inspected

Total number of boilers inspected, 9,111.

Boilers inspected internally, 1,425.

Boilers inspected externally, 7,420.

Boilers inspected externally under steam, 266.

Defects found on boilers, 1,327.

Boilers ordered repaired, 347.

Appendages ordered, or defective appendages repaired or replaced, 6,797.

Number of boilers on which hydrostatic pressure test was applied, 6,853.

Number of boilers on which maximum allowable pressure was reduced, 10.

Number of boilers condemned, 6.

Complaints investigated, 86.

Fines imposed, \$20.00.

Days on Special Duty, 14.

Days in Court, 5.

Air Tanks Inspected

Total number of air tanks inspected, 92.

Defects found on air tanks, 2.

Air tanks ordered repaired, —.

Appendages ordered, or defective appendages repaired or replaced, 33.

Number of air tanks on which hydrostatic pressure test was applied, 4.

Number of air tanks on which maximum allowable pressure was reduced, —.

Number of air tanks condemned, —.

Complaints investigated, 13.

The following tabulation shows the number of inspections made by the Boiler Inspectors of the Division of Inspection during the past five years:

Year	Inspections of Steam Boilers		External Under Steam	Inspections of Air Tanks	Total Inspections
	Internal	External			
1929	1,845	6,836	341	224	9,246
1930	1,797	6,723	363	173	9,056
1931	1,740	7,509	363	188	9,800
1932	1,444	6,785	450	97	8,776
1933	1,425	7,420	266	92	9,203

General Summary of Examinations

Engineers' and Firemen's License Law

Examinations for licenses as engineers and firemen, 1,942.

Licenses granted and applicants rejected: First-class engineers, granted, 14; rejected, 32. Second-class engineers, granted, 36; rejected, 128. Third-class engineers, granted, 162; rejected, 128. Fourth-class engineers, granted, 23; rejected, 21. Steam fire engineers, granted, —; rejected, —. Portable engineers, granted, 4; rejected, 1. First-class firemen, granted, 160; rejected, 124. Second-class firemen, granted, 422; rejected, 411. Specials to have charge of first-class plant, 6; rejected, 3. Specials to have charge of second-class plant, 24; rejected, 40. Specials to have charge of third-class plant, 31; rejected, 47. Specials to have charge of other plants, 13; rejected, 11. Specials to operate first-class plant, —; rejected, —. Specials to operate second-class plant, 14; rejected, 17. Specials to operate third-class plant, 20; rejected, 23. Specials to operate other plants 16; rejected, 11.

Total licenses granted, 945. Total applicants rejected, 997. Licenses exchanged, 21. Licenses suspended, 3. Licenses revoked, 4. Complaints investigated, 301. Total service on boards, 1,283 man days.

Operators of Hoisting Machinery License Law

Applications received, 118. Licenses granted, 101; applicants rejected, 17. Complaints investigated, 29.

Board of Boiler Rules

The Board of Boiler Rules, a permanent board appointed in accordance with the provisions of General Laws, Chapter 22, Section 10, is required to hold public hearings semi-annually on the first Thursdays of May and November for the purpose of considering petitions for changes in the steam boiler rules formulated by the Board. In addition to these hearings the Board held ten other hearings during the year. A large number of requests for changes in the rules have been received and have been given consideration. Such changes as are deemed necessary are now being formulated and will be promulgated in the near future.

Board of Elevator Regulations

A Board of Elevator Regulations, to be convened when occasion requires, is authorized by General Laws, Chapter 22, Section 11. No requests for amendments to the elevator regulations were received and it is believed that these and the escalator regulations are at present satisfactory.

STATE BOXING COMMISSION

The State Boxing Commission serves in the Department of Public Safety by virtue of and in accordance with the provisions of General Laws, Chapter 22, section 12. The Commission administers and enforces the provisions of General Laws, Chapter 147, sections 32 to 47 inclusive and the rules and regulations made under the authority of section 46. The duties of the Com-

mission include, among other things, the licensing of boxing clubs, boxing exhibitions, boxers, managers, seconds, physicians and time-keepers and the supervision of exhibitions conducted under the boxing law.

The following is a statistical report for the period ending November 30, 1933:

The number of professional clubs conducting matches and exhibitions was 22 and the number of exhibitions held was 150.

Receipts from license fees \$13,452.53

Five per cent of gross receipts from boxing exhibitions . . . 14,611.09

Clubs licensed, 22.

Exhibitions authorized, 165.

Exhibitions disapproved, 3.

Exhibitions cancelled, 12.

Exhibitions held, 150.

Licenses granted: Boxers, 129; managers, 31; seconds, 84; referees, 17; judges, 39; timekeepers, 16; physicians, 19.

Licenses revoked: Boxers, 0; managers, 0; seconds, 1; clubs, 0.

Licenses suspended: Boxers, 4; managers, 2; seconds, 1; clubs, 2.

Visiting boxers debarred from State, 313.

Visiting managers debarred from State, 18.

Visiting seconds debarred from State, 10.

Special and amateur exhibitions authorized, 151.

Special and amateur exhibitions disapproved, 1.

Special and amateur exhibitions cancelled, 4.

Special and amateur exhibitions held, 146.

Note: The item, "Boxers, 129," mentioned above represents licenses granted and fully paid for. Additional licenses have been granted upon which part payment only has been made.

DIVISION OF FIRE PREVENTION

Under the provisions of General Laws, Chapter 148, the State Fire Marshal is required to study fire hazards and fire prevention and all matters relating thereto, hear appeals, suggestions and complaints from all persons and from all cities and towns, advise with the officers of such cities and towns; and make suggestions to the General Court and to the cities and towns looking to the improvement of the laws, ordinances and by-laws relating to fire departments, construction of buildings, building or fire limits, use and occupation of buildings and other premises, protection of existing buildings, fire escapes and other life saving devices, segregation and licensing of trades dangerous by reason of fire hazard and all matters relating to fire prevention and fire hazard. In carrying out the provisions of this statute, during the year 1933 the Fire Marshal held several conferences with fire department officials, and conferred in various sections of the state with representatives of communities interested in the work of fire prevention, with the view to securing improvement in fire prevention methods.

The State Fire Marshal acted as chairman of a special committee in the creation of a training school for firemen, and this school has successfully operated in ten conveniently located centers throughout the Commonwealth. This school is sponsored by the Fire Marshal, the Fire Chiefs' Club, the Massachusetts Farm Bureau Federation, the Department of Education, insurance interests and others interested in the training of firemen in communities where there are no organized drill schools.

The Fire Marshal also served on a committee interested in the prevention of fires in rural and farm districts. Several meetings were held and much accomplished in this work. In connection with this matter, a special exhibition was arranged at the Eastern States Exposition in Springfield where it was viewed by several thousand people and received very favorable com-

ment from the public and from officials interested in this particular fire prevention movement.

During the past year a number of illustrated lectures on the discovery of evidence and the proper handling of same in connection with arson and other fraudulent burning cases were given by an inspector of the Fire Marshal's division at several fire stations throughout the Commonwealth. The Fire Marshal also cooperated with a number of local fire departments in the formation and operation of fire prevention bureaus within the respective departments.

During the observance of Fire Prevention Week, beginning October 8, 1933, the local fire departments and civic organizations cooperated with the Fire Marshal in special activities for the furtherance of fire prevention.

During the past year new fuel oil regulations, and regulations governing the inspection of petroleum products were promulgated by the Fire Marshal, and a number of regulations concerning other inflammable materials are now in the process of preparation. In connection with these regulations, the Fire Marshal assembled at various times parties interested in such regulations, these meetings being attended by heads of fire departments, representatives of dealers in petroleum products, insurance company representatives, oil burner equipment manufacturers, garage owners and others.

Due to the rapid development of fuel oil burners designed for use in connection with kitchen ranges, stoves, small heaters, water heaters, etc., it became necessary to revise the regulations of the department governing the use of fuel oil so that these burners would have to be approved. During the year several hundred of these oil burners have been submitted to the department for examination, and during that time 283 fuel oil burners have been approved for use within the Commonwealth.

The increased use of fuel oil for domestic purposes has necessitated additional storage facilities, and as a result many existing bulk storage plants have increased their storage, and a number of new plants have been created. Inspectors of the Fire Marshal's office are required to make inspection of these plants at various times to observe that they are being maintained in a safe condition.

It is also required under General Laws, Chapter 148, that all fires of suspicious origin occurring throughout the Commonwealth, with the exception of the city of Boston, shall be investigated by the State Fire Marshal. The duties necessary to accomplish this work are performed by officers of the Division of State Police who are assigned to specific districts and perform their duties under the direction of a Chief Fire Inspector who also acts as assistant to the State Fire Marshal. The Chief Fire Inspector is also empowered under the statute to administer oath and take testimony at fire inquests. The past year was marked by an increase in the percentage of convictions in cases arising from incendiarism. In addition to the success of the state fire inspectors in securing convictions, their work has been especially gratifying inasmuch as included among those convicted were a number of persons who were making a business of setting fires for hire, and in these cases convictions have been instrumental in breaking up so-called "arson rings."

Service of Fire Inspectors

Fires investigated, 4,653. Fire inquests held, 88. Blasting investigations, 4. Celluloid storage, 3. Cleaning and dyeing establishments, 4. Explosions investigated, 19. Filling stations investigated, 128. Fireworks investigated, 33. Fuel oil investigations, 23. Garages inspected, 215. Garages proposed, 4. Gas and oil storage inspections, 169. Hospitals and other buildings inspected for X-ray films, 2. Investigations other than fires, 59. Lumber storage, 1. Miscellaneous investigations, 42. Oil transportation, 17. Range oil burners inspected, 205. Shops and factories investigated, 2. Storage of dynamite or explosives of any kind, 7. Yards investigated, 1.

Summonses served, 969. Days in court, 523. Days on special duty, 98.

SALE AND CARRYING OF FIREARMS

The enactment of Chapter 485 of the Acts of 1922, amending Chapter 140, Sections 121 to 131, of the General Laws, relative to the sale and carrying of firearms, imposed upon this Department the supervision of the records of sales made and licenses issued in accordance with the provisions of the act.

During the year commencing December 1, 1932, and ending November 30, 1933, the following records were received and recorded in the files of this Department:

Number of licenses issued to dealers, 20; revoked, none.

Number of sales reported by dealers, 685.

Number of licenses issued for the carrying of firearms, 18,850.

Number of licenses issued for the carrying of firearms revoked, 46.

Number of permits to purchase firearms issued and not used, 56.

The following is the number of licenses to carry firearms issued by each city and town:

Abington, 27; Acton, 17; Acushnet, 34; Adams, 52; Agawam, —; Alford, 1; Amesbury, 111; Amherst, 33; Andover, —; Arlington, 95; Ashburnham, 13; Ashby, 5; Ashfield, 6; Ashland, 13; Athol, 67; Attleboro, 113; Auburn, 34; Avon, 11; Ayer, 24; Barnstable, 107; Barre, 26; Becket, 2; Bedford, 11; Belchertown, —; Bellingham, 6; Belmont, 84; Berkley, 2; Berlin, 11; Bernardston, 4; Beverly, 166; Billerica, 81; Blackstone, 10; Blandford, 5; Bolton, 5; Boston, 3,049; Bourne, 38; Boxborough, 1; Boxford, 15; Boylston, —; Braintree, 141; Brewster, 5; Bridgewater, 48; Brimfield, 7; Brockton, 248; Brookfield, 31; Brookline, 158; Buckland, 27; Burlington, 10; Cambridge, 461; Canton, 28; Carlisle, 2; Carver, 40; Charlemont, 9; Charleton, —; Chatham, 9; Chelmsford, 76; Chelsea, 109; Cheshire, 5; Chester, 21; Chesterfield, 6; Chicopee, 133; Chilmark, —; Clarksburg, 2; Clinton, 37; Cohasset, 30; Colrain, 2; Concord, 129; Conway, 2; Cummington, 10; Dalton, 30; Dana, —; Danvers, 61; Dartmouth, 21; Dedham, 52; Deerfield, —; Dennis, 30; Dighton, 3; Douglas, —; Dover, 4; Dracut, 39; Dudley, 12; Dunstable, —; Duxbury, 31; East Bridgewater, 22; East Brookfield, 7; East Longmeadow, 45; Eastham, —; Easthampton, —; Easton, 32; Edgartown, 4; Egremont, 12; Enfield, 2; Erving, 9; Essex, 6; Everett, 65; Fairhaven, 131; Fall River, 166; Falmouth, 105; Fitchburg, 277; Florida, —; Foxborough, 24; Framingham, —; Franklin, 54; Freetown, 8; Gardner, 142; Gay Head, —; Georgetown, 23; Gill, 11; Gloucester, 77; Goshen, —; Gosnold, —; Grafton, 35; Granby, 6; Granville, 7; Great Barrington, 16; Greenfield, 92; Greenwich, —; Groton, 49; Groveland, 24; Hadley, 10; Halifax, 8; Hamilton, 52; Hampden, 9; Hancock, 2; Hanover, 25; Hanson, —; Hardwick, 17; Harvard, 7; Harwich, 47; Hatfield, 18; Haverhill, 231; Hawley, —; Heath, 1; Hingham, 27; Hinsdale, 1; Holbrook, 23; Holden, 13; Holland, 1; Holliston, 33; Holyoke, 125; Hopedale, 44; Hopkinton, 8; Hubbardston, 2; Hudson, 68; Hull, 41; Huntington, 6; Ipswich, 17; Kingston, 30; Lakeville, 13; Lancaster, 22; Lanesborough, 7; Lawrence, 262; Lee, 15; Leicester, 35; Lenox, 1; Leominster, 104; Leverett, 1; Lexington, 65; Leydon, —; Lincoln, 1; Littleton, 4; Longmeadow, 43; Lowell, 121; Ludlow, 42; Lunenburg, 29; Lynn, 279; Lynnfield, 28; Malden, 126; Manchester, 55; Mansfield, 96; Marblehead, 46; Marion, 18; Marlborough, 62; Marshfield, 34; Mashpee, —; Mattapoisett, 17; Maynard, 91; Medfield, 16; Medford, 130; Medway, 4; Melrose, 158; Mendon, 7; Merrimac, 5; Methuen, 113; Middleborough, 66; Middlefield, 1; Middleton, 26; Milford, 69; Millbury, 29; Millis, 20; Millville, —; Milton, 85; Monroe, 9; Monson, 29; Montague, 8; Monterey, 2; Montgomery, 4; Mount Washington, —; Nahant, 9; Nantucket, 19; Natick, 77; Needham, 43; New Ashford, —; New Bedford, 289; New Braintree, —; New Marlborough, 4; New Salem, 2; Newbury, 17; Newburyport, 64; Newton, 298; Norfolk, 46; North Adams, 97; North Andover, 46; North Attleborough, 34; North Brookfield, 21; North Reading, 27; Northampton, 172; Northborough, 17; Northbridge, 21; Northfield, 10; Norton, 11; Norwell, 14; Norwood, 134; Oak Bluffs, 6; Oakham, 1; Orange, 62; Orleans, 17; Otis, —; Oxford,

AMOUNTS PAID TO THE TREASURER OF THE COMMONWEALTH

The following amounts, representing the fees received with applications, and for the respective services named, have been paid to the Treasurer of the Commonwealth by the Department of Public Safety during the fiscal year ending November 30, 1933:—

Air tanks, fees for inspection of	\$276.00
Auctioneer license law, forms furnished in compliance with	11.24
Boilers, fees for inspection of	49,172.83

Boxing Exhibitions:

Five per cent of gross receipts from boxing exhibitions	14,611.09
Licenses to conduct boxing exhibitions, also licenses as physicians, referees, judges, timekeepers, professional boxers, managers, trainers, or seconds, applications for	13,452.53
Certificate of competency, applications for	270.00
Commission on money taken in at Pay Stations	49.03
Elevator licenses	5.00
Engineers' and Firemen's licenses and operators' hoisting machinery licenses, applications for, and appeals	6,874.00
Entertainment inspection	198.00
Escort Duty, State Police	7,897.01
Firearm Law, forms furnished in compliance with	498.60
Forfeited Liquors	4,693.34
Insurance damaged cars	628.20
Interest on bank deposit	9.94
Lord's Day Entertainments, applications for approval of	41,926.00

Miscellaneous Income:—

Not Analyzed	5.00
Postage Paid15
Reward for Apprehension	10.00

Moving Picture Machines:—

Booths	44.00
Machines	128.00
Licenses (other than Safety Film), applications for	500.00
Renewal of licenses to operate (other than Safety Film), applications for	1,725.00
Safety Film licenses and renewals, applications for	700.00
Assistants' permits and renewals, applications for	333.00
Film Leaders	131.30
Sales Plates	24.50
Special exhibition permits, applications for	102.00
Private detectives' licenses, applications for	3,700.00

Sales:—

Badges, Clubs, etc.	116.23
Breeches	5.00
Covers for Digest and General Laws	146.85
Fertilizer	3.00
Hay	25.00
Horses	27.00
Police Barracks	101.00
Police Boat	2,601.00
Seized Money Fund	1,714.23
Seized Motor Cars	395.00
Ticket sellers' licenses, applications for	600.00
Witness fees	21.60

\$153,731.67

Refunds, account of previous years	201.08
--	--------

Total	\$153,932.75

RETIREMENTS

The following retirement of personnel occurred during the year:

Angus H. McDonald, Building Inspector. Entered the service of the Commonwealth December 7, 1908; retired May 1, 1933.

Joseph F. Cobb, Building Inspector. Entered the service of the Commonwealth March 15, 1909; retired May 1, 1933.

IN GENERAL

Contact with the various units engaged in the work of law enforcement co-incident to the work of the Department of Public Safety leads one to the conclusion that desirable improvement in efficiency can be obtained for police departments generally by systematic training and education of police officers.

The matter of efficient police service is closely associated with public safety since the work of the police is such an important factor in the protection of life and property. It would appear, therefore, that measures should be taken to provide that proper training and education should be a prerequisite to appointment to police positions and that all police officers now serving in municipal departments should be given the advantage of a thorough and systematic course of training in their duties.

In closing the report for the fiscal year 1933 I wish to express to the members of the General Court, to His Excellency the Governor and to the various officials in the public service my appreciation of the cooperation which they have extended in the numerous matters affecting this department. To the members of the department who have displayed an intelligent, loyal and efficient interest in the many tasks which have confronted us and whose helpful cooperation has lightened the work of administration I extend my heartfelt thanks.

Respectfully submitted,

DANIEL NEEDHAM, *Commissioner.*
